

PLICORD DISTILLERY 150 HOSE

Application: Specifically designed for transfer of high proof alcohol, by-products and other liquids up to 98%. Suitable for all beverages: wine, brandies, spirit, fruit juice etc. Ideal hose for installation in breweries, distillers, bottlers and many other installations in the beverage and spirit industries.

Advantages:

- Hygienically smooth, non-porous, and absolutely odor- and taste-neutral inner liner
- Liner is resistant to conventional cleaning agents and disinfectants and suitable for CIP
- Phthalates free tube, FDA/USDA and 3A compliant, NSF 61 listed material
- Non marking, corrugated cover for easy handling

Construction:

Tube: UHMWPE (FDA/USDA and 3A compliant, NSF 61 listed material)

Cover: Corrugated Grey EPDM (wrapped impression)

Reinforcement: Spiral-plyed fabrics with double galvanized wire helix

Temperature Range: -40°F to 212°F (-40°C to 100°C)

Order Code: 549-683

Branding: CONTINENTAL CONTITECH PLICORD DISTILLERY 150 PSI WP FDA 3-A & USDA ##### MADE IN CANADA (3/4" Spiral Transfer Tape, White Backing with Green Lettering)
