

Tip # 49 AquaHammer™

Did you know that there is an OSHA standard to control construction site silica dust caused by jackhammers and concrete saws? Continental is proud to offer a brand new Jackhammer assembly, AquaHammer, as a dual air/water hose designed for silica dust suppression and helps contractors meet Respirable Crystalline Silica Standard #CRF 1926. 1153.

- AquaHammer is a unique combination of Continental's high quality Jackhammer hose and premium water hose.
- Promotes environmental friendly, safe working conditions.
- Manufactured and fabricated in house for a guaranteed 4:1 S.F.
- Compounds designed specifically for air and water in a construction applications.
- Spiral built construction for a lightweight, easy to handle and flexible assembly.
