

# Aquahammer

*The Greener Jackhammer Hose*

Hammering through concrete is no joke. It's dangerous, and it exposes you to harmful dust and debris. Additionally, the governing bodies are constantly looking for ways to implement safer working conditions. The all-new Aquahammer is a twin-lined jackhammer hose engineered to lower dust and debris buildup and to be better for the environment as well.

TYPE	HOSE ID	WORKING PRESSURE	FITTING CONFIGURATIONS	COLOR
Air Hose	3/4"	200 psi	Universal Fitting	Blue/Green
Water Hose	3/8"	200 psi	Rigid Male 3/8" x 3/8" NPT	Blue/Green

OSHA Regulation Number: 29 CFR 1926. 1153 for Respirable Crystalline Silica

# ContiTech AquaHammer

**Application:** AquaHammer Dual Air/Water Jackhammer Factory Assemblies are crimped with high-quality universal couplers and MNPT. Designed for silica dust suppression and to help contractors meet OSHA Respirable Crystalline Silica Standard.

**Construction:**

**Tube:** Black EPDM, ARPM Class C (Limited Oil Resistance)

**Cover:** Black EPDM, ARPM Class C (Limited Oil Resistance)

**Reinforcement:** Spiral Synthetic Yarn

**Temperature Range:** -40°F to 210°F (-40°C to 99°C)

**Design Factor:** 4:1

**Branding:** Continental ContiTech AquaHammer 200 PSI W.P MADE IN USA

**Packaging:** 50' Cut Coiled and Tied Assemblies

**Couplings:** Contact fitting manufacturer for proper fitting recommendation & coupling procedure.

**Order Code:** 569-690
